

Tax breaks for hiring workers

Let WorkSource show you how!

You can save thousands of dollars on your federal taxes when you hire eligible workers through the Work Opportunity Tax Credit program.

Even larger tax breaks are available in 2012 for hiring military veterans.

Work Opportunity Tax Credit

Eligible workers include military veterans, food stamp and welfare recipients, ex-felons, people with disabilities and recipients of Supplemental Security Income.

The amount of your tax savings varies, depending on the individuals you hire and the length of their employment.

For example, you can save up to \$9,000 over two years for each long-term welfare recipient you hire or as much as \$2,400 per year for other eligible hires.

In 2012, you can enjoy even greater tax savings for hiring veterans: up to \$5,600 for long-term unemployed veterans and as much as \$9,600 for those with a service-connected disability.

Get started

WorkSource business representatives can provide more information, or you can call the WOTC Employer Helpline toll free at 800-669-9271.

WorkSource also can help you with:
